

**\*\*IMPORTANT NOTES - PLEASE READ!\*\***

- > All window A/C units **MUST** have **digital display** and **automatic restart**.
- > Window **A/C brands marked with \*** have a minimum *ON* cycle time set from the factory; using an oversized A/C from these brands may lead you to experience colder than set temperatures or ice ups. Please use the recommended size A/C.
- > **A/C Secondary Sensor Guide** and **Mini-Split Installation Guide** available at: <https://storeitcold.com/support-library/>
- > Most compatible brands of window A/Cs can be found at: [build.com](http://build.com), [homedepot.com](http://homedepot.com), [lowes.com](http://lowes.com), [walmart.com](http://walmart.com), [amazon.com](http://amazon.com), and [bestbuy.com](http://bestbuy.com).
- > Please **DO NOT** purchase **REFURBISHED A/Cs**. Buy only new A/Cs and ensure they are from a reputable seller.
- > For portable A/Cs, see WHYNTER Brand on page 2.
